

Mount Olive Public Library is pleased to present:

## The Land Conservancy of New Jersey

Join Barbara McCloskey,  
Membership & Outreach Manager at the Land Conservancy

**Thursday, October 19<sup>th</sup> from 6:45-8:45pm in our Gathering Room**  
to learn how they are dedicated to preserving open space and  
farmland and protecting our water resources in New Jersey.

In addition, the program will also include how the Land Conservancy has preserved over 400 acres in Mt. Olive township to help protect the drinking water of 1 ½ million residents; and in the process, established a community garden that has enabled residents to not only grow their own vegetables, but also donate excess produce to the local food pantries.
