

Mount Olive Public Library Presents:

“Holocaust”

Presentation/Discussion

In honor of April being Holocaust month, Dr. Paul Reilly (Ph.D. in European History) will offer a presentation/discussion with personal pictures of the most infamous concentration camp of World War II: Auschwitz.

We will focus on the reasons for its creation, the mentality of the people who ran it and the daily life of people who suffered through it....including anecdotes of survivors.

Dr. Reilly has been to Auschwitz several times and had a relative who was there when it was liberated in 1945.

Although the grim reality will be discussed, children are invited in the hope of increasing their awareness of this horrible reminder of the horrors of Nazi Germany during the war. This presentation has been made to junior high and high school students with a highly positive reaction.
