Dr. Sal will discuss the following principles:

- Literature is a body of written works consisting mainly of poetry and prose.
- Religion puts the foundation of the belief the person has before the writings.
- Mathematics, being the root of the tree of knowledge, will be able to justify with mathematical logic the facts about the science of linguistic and religion.

**Discussion on Literature (including Bengali) and Religion with Mathematical Analysis**

**Presented by Dr. Salilesh Mukhopadhyay**

Beginning at 12:15pm in the Gathering Room
